

That Dude (in the Movies)

(Words and music by Joshua Starmer, copyright 2014)

V1

I wish I could talk like that dude in the movies

D F#min G

I would always know just want to say to you

D F#min G A

A team of writers would perfect every sentence

D F#min G

and I'd always know just want to say to you

D F#min G A

V2

I wish I could drive like that dude in the movies

I would look into your eyes all the way... home

I wouldn't need to steer, I'd hold both of your hands

and I would look into your eyes all the way... home

Chorus

But I'm just me and I hope that's good enough for you

Bmin A D G

'Cause I'm just me and I pray that's good enough for you

Bmin A D G

But I'm just me and I hope that's good enough for you

Bmin A D G

'Cause I'm just me and I pray that's good enough for you

Bmin A D G

V3

I wish I was cool like that dude in the movies

I would rescue you from harm all the time... check it out

I would have a black belt in every martial art

and I would rescue you from harm all the time... check it out

V4

I wish I could dance like that dude in the movies

I'd be smooth and never step onto your toes... no way

I'd lift you up just like that scene with Patrick Swayze

I'd be smooth and never step onto your toes... no way

Bridge

Lights shine on the silver screen

G/B A D A G/B

While you're sitting next to me
