Chorus 2

So much time is always passes us

In the blink of an eye

Sending signals up the aerial

Across the sky

I hear you calling out for me

On a holiday

I feel you reaching out for me

On a holiday

Verse 2

It seems so

so long and

so far away

But when I

I hear you

It's a warming ray

The snow will

fade from view

melt and make way

I know you're

never far

on a holiday

Chorus 3

Turn on your radio

Transmission's clear

Though you are far away

Your voice sounds near

I hear you calling out for me

On a holiday

I feel you reaching out for me
On a holiday

Satellites are bouncing energy
From up high above
The dots and dashes spell
Tidings of love

I hear you calling out for me
On a holiday
I feel you reaching out for me
On a holiday
