Just deal with it

That's your problem deal with it

Don't make it mine, don't make it mine, don't make it mine

Just deal with it

Vs2

His words are kind

You just twist them up inside of your mind

He's wrong you say

And you're gonna have to make him pay

You think it's true

That world revolves around you

That's just your ego deal with it

Don't bring me down x3

Just deal with it
That's your problem deal with it
Don't make it mine x3
Just deal with it
