

## The Coldest Day of the Year

(Words and music by Joshua Starmer, copyright 2016)

### Intro

I think it was the coldest day of the year

**C G Amin Bflat G**

### Vs1

Grandma's in the kitchen, she's been cooking all day

**C Dmin F Dmin**

The smell comes in waves and waves and waves, I can hardly wait

Setting the table, passing the plates

Polishing the silver forks and knives till you see your face

**C Dmin F G**

### Chorus

I think it was the coldest day of the year

**C G Amin Bflat**

A cloudy sky, snow and ice outside

**G Amin Dmin C G**

You started a fire using the embers from yesterday

A glowing light spreading warmth inside

### Vs2

Here comes the family inside from the snow

Look at your youngest daughter now, see how she grows

I think that next year we'll need to get a bigger table

Please help your mother take her seat, you know where she goes

### Chorus2

I think it was the darkest day of the year

Noon and night seemed the same outside

The warmth from your fire built with the embers from yesterday

The perfect way to spend a day inside

### Bridge

Let's take a moment to think of the friends that can't be here

**Amin C Amin C Emin**

Let's all be thankful for the love that we have

**C Amin G**

### Chorus1

- Repeat the last "warmth inside" (Dmin C G) and resolve with a C chord
